

GOOGLE ANALYTICS COOKIES Google Analytics tracking uses cookies in order to provide meaningful reports about this sites visitors. However, Google Analytics cookies do not collect personal data about this websites visitors.

Google Analytics uses cookies to define user sessions, as well as to provide a number of key features in the Google Analytics reports. Google Analytics sets or updates cookies only to collect data required for the reports. Additionally, Google Analytics uses first-party cookies. This means that all cookies set by Google Analytics for this domain send data only to the servers for this domain.
